

South Shore Habitat for Humanity (SSHH) is a 501(c)(3) non-profit organization dedicated to delivering simple, decent, affordable homes in partnership with families in need.

Our organization provides corporations with an opportunity to provide their employees with a volunteer experience and a chance to make a tangible difference in people's lives. Building a home for someone is a unique experience that opens your eyes to the plight of others who do not have the basic, decent shelter that so many of us take for granted. It is a physical and emotional experience. Volunteers have said that they come away from the experience receiving more than they have given.

Companies can sponsor corporate work days by making a financial contribution to South Shore Habitat and sending a team of employees to help build a Habitat home.

Rewards of Corporate Volunteering:

- **Reputation Management** - South Shore Habitat for Humanity has a proven track record as a non-profit organization. We have excellent brand recognition and provide corporations with high visibility in the community – positively influencing a company's image.
- **Stronger Business Relationships** - Inviting prospective clients, vendors and valued customers to build with your company and its employees is a great way to strengthen professional relationships.
- **Improved Employee Morale** - Employees enjoy working together with their colleagues away from the office. Volunteerism promotes employee motivation and morale.
- **A Lasting Legacy of Service** – Your contribution helps to provide an interest-free, twenty-year mortgage payment that enables families to achieve homeownership. Their repayment of the mortgage services as a resource for Habitat to build more homes.

Your Build Day:

- Employees spend the day building, which may include framing, roofing, installing doors/windows, painting landscaping or finish work, depending on the phase of construction.
- Build days are scheduled during the week from 8:00 AM until 3:30PM with a lunch break around noon. Employees must provide their own transportation to and from the worksite.
- Your company makes a minimum financial contribution of \$3,000/based on an average of 10 employee volunteers.
- Blitz-Build (Week-long) builds are available for \$12,000.

Please contact us today to reserve your build day!
