

Mission Vision

A world where everyone has a decent place to live.

Mission Statement

Habitat for Humanity works in partnership with God and people everywhere, from all walks of life, to develop communities with people in need by building and renovating houses so that there are decent houses in decent communities in which every person can experience God's love and can live and grow into all that God intends.

Walker Street Update

We're started! The foundation is in place and ready for our first build day on December 12th with volunteers from The United Church of Christ in Medfield.

On Saturday, December 5th, following a brief visit to 9 Walker Street, John and Elizabeth Dahl and their four children (Meghan, age 11; Morgan, age 6; Logan, age 4½; and Riley, age 19 months) were introduced at a ceremony and reception held at the St. Joseph Parish House, Medway. Approximately 120 people were present and all warmly welcomed the Dahl family. A very nice [article describing the event](#) appeared in Sunday's *Milford Daily News*.

Mid-week Build Opportunities

There has been overwhelming enthusiasm for Saturday volunteer construction teams, but is there a group of individuals who would be available to work mid-week and thus speed construction?

The traditional South Shore Habitat for Humanity mid-week work day is Wednesday, but Ray Chesley, Construction Manager, has indicated that he could accommodate any day quite easily, except Friday, but even that wouldn't be impossible. The goal is to have a

Friday, but even that wouldn't be impossible. The goal is to have a volunteer team work on those weeks when a corporate build isn't scheduled.

Two things will be needed for this to happen. First, at least ten individuals will need to express interest in participating; and second, a professional building contractor will need to be present each time the team meets to act as site supervisor.

If you are interested in being part of this (near) weekly commitment as either a volunteer or site supervisor please contact the construction volunteer coordinator, Mike Polagye by e-mail: michael.polagye@fmglobal.com; or phone: 781-255-4730 (weekdays at work) or 508-520-0865 (evenings and weekends at home). In your response please indicate:

- Whether or not you could work on Wednesdays (or if Wednesday is not a good day, what other weekdays would be better)
- Any special skills or contractor experience/licenses you have or had
- Contact information (e-mail and phone number would be appreciated)
